REPORT OF SCHOOL BOARD.

To the Inhabitants of the School District of Dunbarton:

Your School Board submits its annual report for the year beginning July 1, 1927, up to the present time.

On account of the large number of pupils at the Montalona school, it was found necessary to remodel the building. The schoolroom was enlarged and an addition built on to the shed. It seemed wise, while the building was being altered, to build a new chimney, since the old one was unsafe. There was very little repair work done besides this. The inside walls and ceiling of the Center school were painted.

New seats and desks were placed in the Center school. At the school meeting last March, Mr. Charles Gourley stated that he would donate fifty dollars towards new seats and desks for the Center school if the school district would vote to raise three hundred dollars for the same. The three hundred dollars were raised and the offer gladly accepted. We thank Mr. Gourley for his generous gift.

A School Fair was held in November. A program was given by the pupils of the various schools, illustrating some part of their school work, also many of their school papers were exhibited. It was a great success. The interest of the townspeople was aroused by the work of the teachers and pupils.

It was brought to our notice that if our district would pay one dollar and a half per pupil for a district nurse, the State would reimburse the district that amount. For every twenty-five pupils the nurse would give a week of her time. It was voted to employ her.

At the end of the last school year Mr. Barrett asked to be released from his contract. His resignation was accepted by the District and Mr. Bushnell was elected in his place. It was with regret that we lost Mr. Barrett. Mr. Bushnell has taken a great interest in the schools and worked hard to help teachers and pupils.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens of Dunbarton:

This is my first annual report. It covers less than a full year of work and observation, as my period of service here began on July 15, 1928.

Thanks to the efforts of my predecessor, Mr. Gaius H. Barrett, I found the schools of the district doing very good work under capable teachers. The good results of his supervision were evident in every schoolroom.

STATISTICAL REPORT FOR YEAR ENDING JUNE 30, 1928.

	Number Half - days School in Session	Average Membership	Percent of Attend- ance.	Number Half - Days Absence per Pupil	Number Tardinesses per Pupil	Visits by Board Members	Visits by Other Citizens	Visits by Superintendent
Centre	347	18.1	96.4	12.5	3.3	2	46	14
Burnham Hill	348	10.2	97	10.8	0.5	0	64	13
South Dunbarton ..	346	7.4	93.5	21.3	2.6	0	18	16
Montalona	348	19.4	90.3	33.7	2.4	1	38	17
Waite	348	17.9	92.5	26.1	1.0	0	80	16
All Schools	347.4	73.1	93.6	22.1	2.0	3	246	76

The record of attendance shown above shows two important facts of which may be proud. The per cent of attendance (93.6%) is higher, and the number of tardinesses (150) is lower than at any time for five years or more. Let us all strive to maintain a record as good or better during the current year.

For the past five years an average of more than 200 visits per year by parents and other citizens has been recorded in our school registers. This shows a very commendable interest in the educational welfare of our children. The latchstring of every schoolroom is always out, and we are glad to welcome visitors at any time.

The public demonstration at Dunbarton Center last November, during Education Week, was attended by a large number of interested people. The program was suggestive of the work that is being done in our schools, and brought to all present some realization of the methods and problems of the teacher of today.

OUR SCHOOLS AND HEALTH.

More than most of us realize, the success of children in doing their school work depends upon their physical health. The physical examination of school children, required by State law, has been made this year by a school nurse, who spends a total of three weeks during the year with the children of Dunbarton. One week, just before the Christmas vacation, was spent in making the examination. The remaining time, later in the year, will be spent in helping to make possible the correction of physical defects and other handicaps to proper school progress.

In order to meet the expense of such service, we were fortunate in being able to secure additional funds from the State amounting to \$74.50. This money was due us in view of the fact that a larger allowance of State money is made to those districts employing a school nurse for a length of time equivalent to one week for each twenty-five pupils.

Miss Ruth Whitcomb of Concord, who was secured to serve us as nurse this year, is much interested in school work and is capably fulfilling her duties. A few statistics regarding physical defects as found by Miss Whitcomb are here presented:

	Centre School	Burnham Hill School	South Dunbarton School	Montalona School	Waite School	Total
No. cases underweight.....	0	1	1	0	1	3
Defective vision	4	0	1	5	3	13
Defective teeth	15	7	10	24	14	70
Defective breathing	7	3	0	7	0	17
Diseased tonsils	6	2	2	13	12	35
Enlarged glands	4	0	2	1	0	7
Number pupils examined.....	16	11	10	26	18	81

By far the most frequent defect found is that of teeth. The possibility of a dental clinic in Dunbarton, where such defects may be treated at slight cost, is being considered. The fact also that 16% of our children are reported to show symptoms of defective eyesight gives serious concern. During the year, it is hoped that many of these may be corrected.

OUR SCHOOL BUILDINGS.

Coming from a neighboring state where for several years a campaign to improve rural schools has been in progress, I find a very noticeable contrast in the condition of the one-room schools in this section. Dunbarton has been gradually working to improve its buildings, and has made commendable progress in this direction. However, several of our buildings do not yet measure up to modern standards of hygiene and comfort.

For the information of Dunbarton voters, I am quoting here in full the regulations for the approval of school buildings in New Hampshire, as issued by the State Board of Education in 1922:

1. Lighting shall be principally from the pupils' left and rear and no windows shall be permitted in the front of any school room. The ratio of window area to floor area shall

be not less than one to five. Ceilings shall be white or light cream color, and curtains of a light tint shall be provided wherever needed.

2. Equipment for heating must be adequate to furnish a minimum temperature of 68 degrees and some provision must be made for ventilation without direct draft on the pupils.

3. Floors must be in good condition and oiled or swept with damp sawdust or some dust-laying compound. Walls must be in good repair and painted some light color. Papered walls have only temporary approval.

4. Toilets must be decent and in sanitary condition. They must be located in buildings free from obscene markings and furnishing proper privacy. The vaults must be fly-proof and properly ventilated. The seats should be provided with covers and in the boys' toilet a double seat or urinal should be provided. Single toilets for both sexes will not be approved except for small schools and then only if their entrance is from the schoolroom only.

5. Water for drinking must be provided in properly covered receptacles with faucet or bubbler. Facilities for washing hands must also be provided. Common towels or drinking cups are prohibited by regulations of the State Board of Health.

6. Every schoolhouse must be provided, as required by law, with a flag and the proper means for displaying it.

7. This list of minimum requirements is intended to cover only such changes as are necessary to make schoolhouses decent and safe for the pupils. Each district should adopt a progressive plan of schoolhouse betterment.

8. It is the duty of the school board to see that all schoolhouses are properly cleaned and that they are kept in clean and sanitary condition by suitable janitor service. Vaults should be cleaned at least twice each year and dry earth or some effective absorbent provided for constant use. Proper care of school buildings is an essential to their approval as their construction.

In order that the above requirements shall be eventually met, it seems to me desirable for Dunbarton to continue the policy of planning for certain definite alterations in some one school building each year. The Montalona school has been enlarged and improved during the past summer, and new seats have been purchased for the Centre school. Several of the buildings in town are in need of additional window space; and frequently improvement can be made by moving windows so that most of the light comes in from the left side. The present condition, which locates blackboards between windows, is especially trying to the eyes.

CONCLUSION.

Grateful mention should be made of the faithful and loyal service rendered by the teachers of the district, and willing co-operation of parents as shown in many ways.

Respectfully submitted,

ALMON W. BUSHNELL,
Superintendent.
